# OREGON & WASHINGTON STATE WINES TASTING 2017

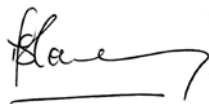

**TASTING  
BROCHURE  
2017**

## **Welcome to the 2017 Oregon and Washington State Wine Tasting**

On behalf of the Oregon Wine Board, Washington State Wine Commission, and the many winery principles attending today, we welcome you to the 2017 Annual Tasting. We are delighted that you have joined us for what will be a fantastic tasting. We have gathered together the largest selection of Oregon and Washington State wineries ever to present their wines in London. Whether you are looking to import wines directly, or are more interested in wines already available in the market, we're sure you will find wines to interest and intrigue. For those already familiar with the regions, we thank you for attending and hope you will find something new. Of course, for those new to the regions, please take this opportunity to explore the different styles available, for Oregon and Washington State produce very different wines.

Despite the uncertainties of Brexit and questions over currency rates, interest in US wines continues to grow. The value of US Wine exports in 2016 reached \$1.62 billion, and while Oregon & Washington State follow behind their west-coast cousin, their share of these exports has continued to grow as the trade and consumers are coming to understand more about the styles of wines offered. This tasting is a wonderful opportunity to taste and learn the regional differences between these closely related, but hugely diverse, states.

It remains an exciting time for Oregon and Washington State wines and we look forward to speaking to you during the tasting - we welcome any thoughts, comments or general feedback.
